FIND YOUR ART OF WONDER IN THE TOWN!

Art from all corners of the globe assembles in Roppongi. The event will include a special contemporary artwork of "Doraemon," installation, video, and performance works throughout the city, as well as a variety of video works, performances, and talk programs that can be enjoyed digitally through Roppongi Art Night Digital (including RAN TV).

Under the spell of art, the city will transform into a magical world filled with mystery. Setting out on an adventure to search for the mysteries of art, there are many discoveries of surprise and emotion awaiting.

We hope you enjoy this great magical adventure with "Doraemon."

OVERVIEW

Roppongi Art Night is an art extravaganza staged in the district of Roppongi. The event proposes a pioneering model for urban development as well as a lifestyle that celebrates the enjoyment of art in our everyday lives. Presenting contemporary art, design, music, film, and performances, Roppongi Art Night offers an extraordinary experience. Launched in March 2009, the event is growing every year.

*Cancelled due to the Great East Japan Earthquake in 2011, COVID-19 related crisis in 2020, 2021.

GREETING

In May of 2020, Roppongi Art Night was forced to cancel due to the spread of COVID-19, with the event repeatedly postponed in the time since. This year, we are especially excited that we will be able to present Roppongi Art Night 2022 from September 17 (Sat) through 19 (Mon/Holiday) over a 3-day period.

While the event will not be an overnight format, you will still be able to enjoy art, film, and performance throughout the city of Roppongi from morning to night.

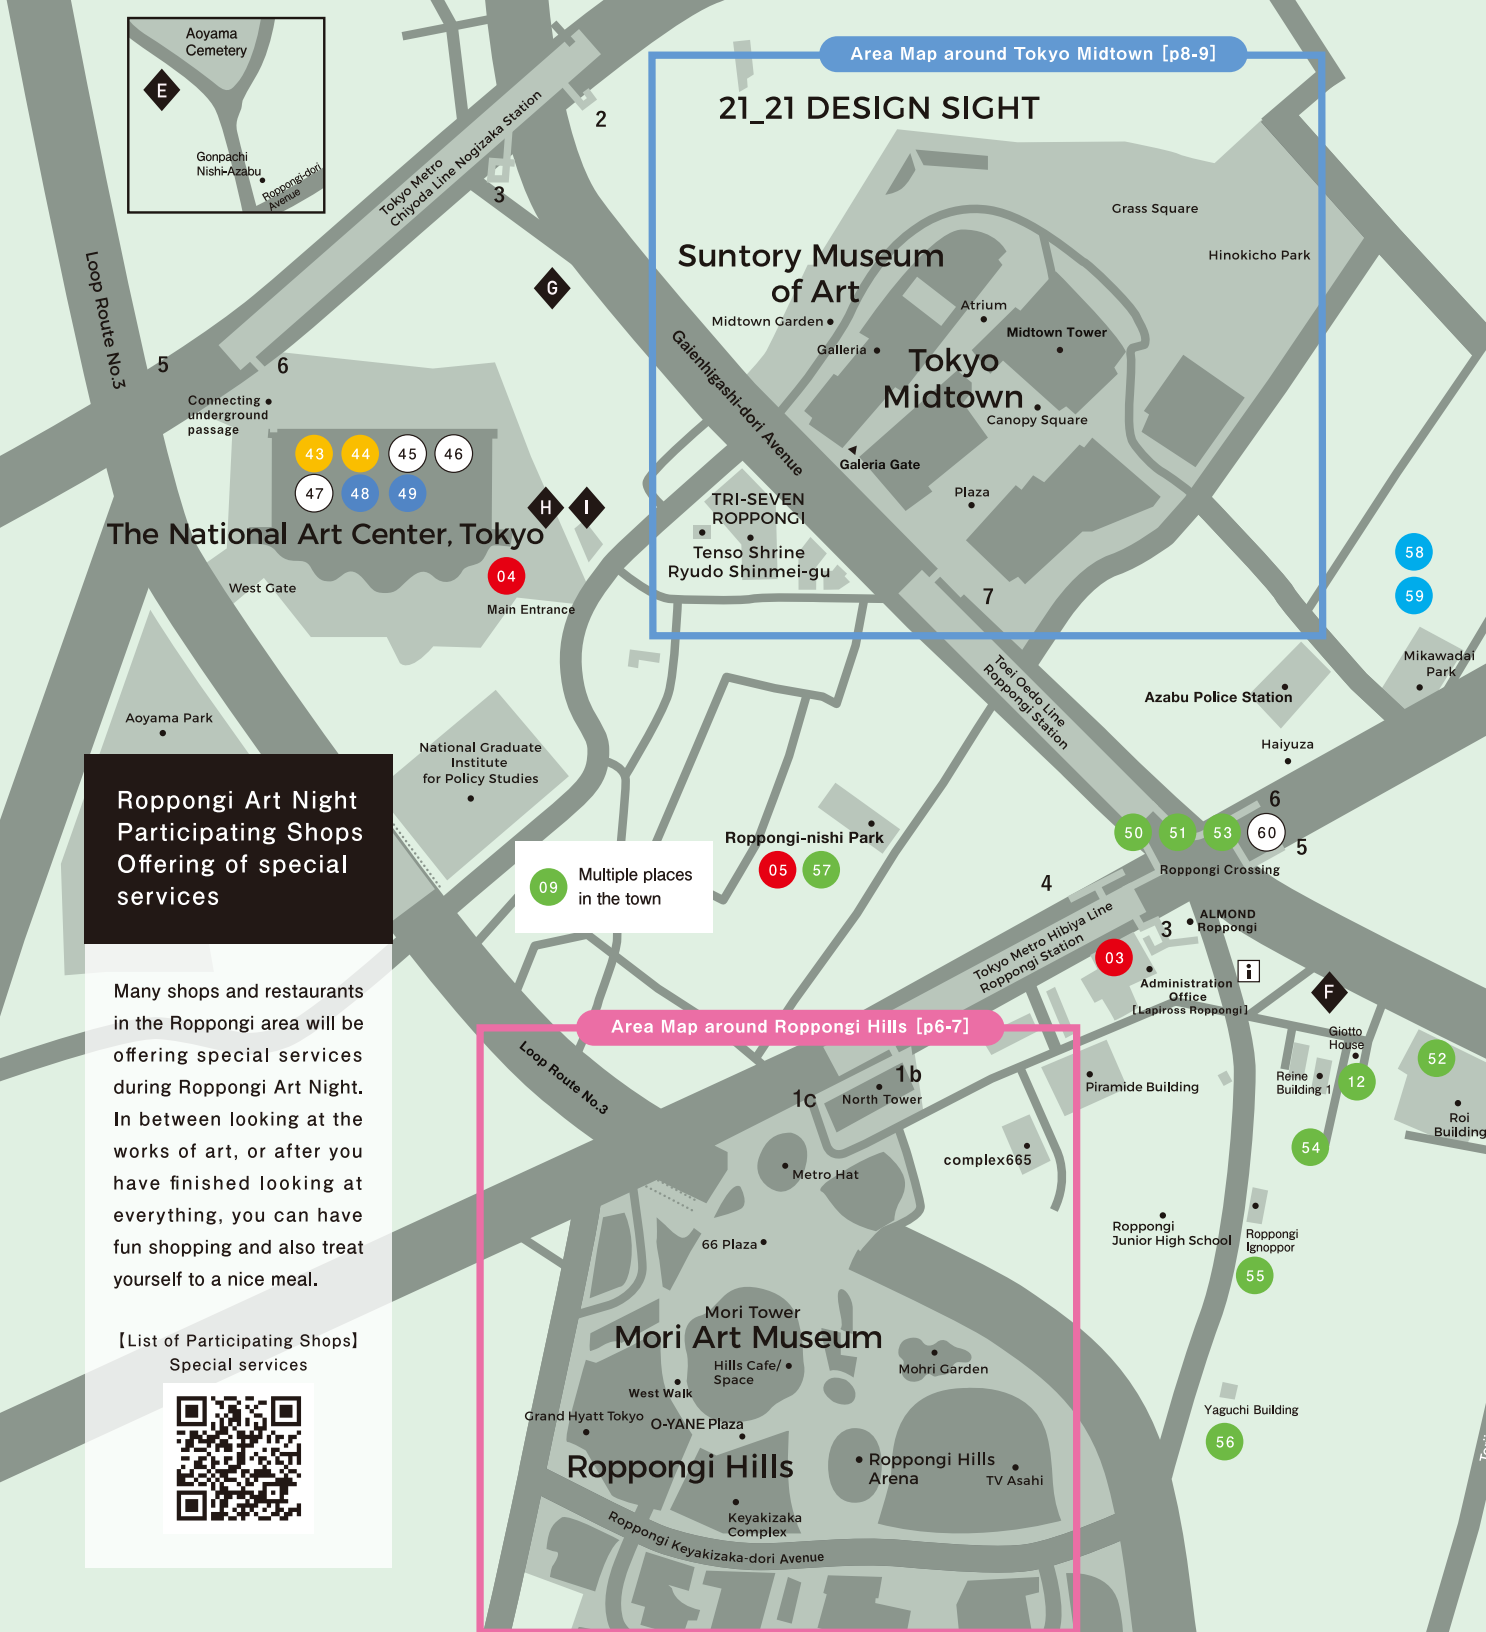

This year's theme is "Magical Adventure: Find Your Art of Wonder in the Town!" This concept was initially developed in the planning for 2020, but now in our current moment, the pandemic and war have expanded into global-scale issues, and people are seeking to travel to and experience another world through the magical power and imagination of art.

The main program of Roppongi Art Night 2022 features Takashi Murakami's long-awaited Doraemon-themed balloon artworks, as well as the Doraemon created by 12 artists under his curation. The Doraemon Gadgets that emerge from the character's magical pocket include the "Anywhere Door" that transports people to favorite places, and the "Timemachine" that transports people to favorite times. These gadgets have long entertained the hearts of children, but the tool that can enable us to freely traverse time and space is our ability, regardless of day or age, for anyone to dream. What kind of world will the Doraemon that these artists collaborated on invite us into?

In addition to the main program of Roppongi Art Night 2022, legendary conceptual artist Lawrence Weiner, along with KIMS00JA and Michael Lin, well-known through international art festivals since the 1990s, will participate in the event. Sebastian Masuda will transform the area surrounding Roppongi Crossing using his distinctly colorful and cute aesthetic. This year again, numerous artists will welcome visitors to experience the magic with artworks and performances throughout Roppongi Hills, The National Art Center, Tokyo, and Tokyo Midtown, even expanding into the vacant spaces of IMOARAZAKA. We hope you'll look forward to it.

Decorated with Takashi Murakami's signature flowers, a ten-meter Doraemon balloon—one of the largest balloons ever made—appears at this year's Roppongi Art Night. Murakami's worldview turns this iconic Japanese character, now celebrating its half-century into pop art.

Takashi Murakami

Born in Tokyo in 1962. The originator and proponent of Superflat theory, which reconstructs Japanese traditional paintings and the origin of Japanese contemporary art through visual premises of anime and manga. Murakami has created numerous characters including MissKo² and Mr. DOB that reflect the otaku culture and presents them in the forms of intentionally kitsch sculptures and acutely two-dimensional paintings antithetical to the Western perspective techniques. The artist continues to attract a wide-ranging audience beyond contemporary art through his multifaceted recent activities including his collaboration with Louis Vuitton and focuses on street culture and contemporary ceramics.

ARTIST COMMENT FOR ROPPONGI ART NIGHT 2022

Roppongi Art Night was postponed three times. The first time was at the onset of the COVID-19 pandemic, then twice more due to the declarations of states of emergency in Tokyo. I suppose the fourth time is the charm, in this case, and after two and a half years, we are finally able to exhibit the balloons created as collaborations between Doraemon and 13 artists under my curation.

The COVID-19 crisis resulted in countless people harboring pent up emotions as a result of isolation, and the whole world moved even further towards a reliance on games and the internet. The chances for people to interact with Japanese contents, especially manga and anime, increased dramatically during this time, and I think as a result it deepened their appreciation for these genres.

Among them, Doraemon is an incredibly important content in Japan and Asia. The protagonist of the series is decidedly uncool and shy, and his earless cat-like robot companion helps him along, though the bashful kid's various problems are never fully resolved. But regardless, he would live and laugh along the way... I believe that this philosophy of life, which is diametrically opposite from "dreams come true," embodied within this work resonates deeply with the people of Asia now.

Just as Mickey Mouse is for America, Doraemon is an iconic character for Asia. This is why I have been collaborating with Doraemon as an emblem of Japan, and this time, I reached out to 13 artists in hopes of further developing this collaboration between Doraemon and Japanese artists. I am hoping that we will be able to provide some augmented reality (AR) experiences at several locations as well. At any rate, please enjoy.

Twelve Groups of Artists Transform Roppongi Art Night 2022

One of the highlights of this year's Roppongi Art Night is that visitors can enjoy Takashi Murakami's talent as a producer. Thirteen emerging artists (twelve groups) curated by Murakami were brought together to create a variety of Doraemon balloons!

📍 Roppongi-nishi Park Please check the map on page 4 ⌚ 9/17-9/19 10:00-18:00 💰 Admission: Free

Initiated by Tokyo Metropolitan Government as one of the first programs of its kind nationwide, Support Program for Arts and Culture! Tokyo Project helps artistic and cultural activities in order to keep culture alive during the coronavirus pandemic. It supports artists and arts professionals forced to suspend activities through disseminating their video works, while also providing opportunities for many people to interact with art.

The Support Program for Arts and Culture! Plaza offers a chance for the artists who were selected for the art division of the project to create live paintings at Roppongi-nishi Park. Enjoy their live performances and artworks.

We will also display works by three other artists who are participating in the Support Program for Arts and Culture! Tokyo Project.
